SECTION 2. PRODUCT INFORMATION: FARM BASED PRIMARY PRODUCERS

You are a primary producer if you are in the business of:

- Cultivating or propagating plants, fungi or their products or parts (including seeds, spores, bulbs and similar things) in any physical environment.
- Maintaining animals for the purpose of selling them or their bodily produce (including milk, eggs, honey).
- Conducting operations relating directly to taking or catching fish or other seafood

All primary producers, including farmers, animal keepers and nursery producers should complete this section.

I am not a primary producer *Go to Section 3*

If a question is not relevant, write 'not applicable' or 'N/A' and draw a line through the question. If there is not enough room to answer any question, add additional pages.

Briefly describe your production system:

SECTION 3. PRODUCT INFORMATION: VALUE-ADDED PRODUCTS

A person who uses one or more primary products to make a value-added product for sale is known as a 'value-adder'. The value-adder is responsible for, exercises control over and participates in, the manufacture of the product. This can be a primary producer, e.g. a strawberry grower who makes jam with their strawberries.

- All producers of value-added product, including farmers who significantly add value (i.e. more than cleaning and presenting for market) should complete this section.
- This questionnaire requires detailed information on the source of all raw products and ingredients used in value added products. Note, water is not considered as an ingredient.

Please include photocopies of the relevant documents listed below with your application:

Tick the box to indicate which documents are relevant and are being attached.

SECTION 5. ALL APPLICANTS

Market Guidelines & Philosophy (as per the Barossa Stallholder Rules and Responsibilities):

- The Barossa Famers Market is a regional market with its heart in the Barossa.
- It is a food only market - the only exceptions are potted plants, cut flowers, compost, wood & Christmas trees.
- There are no resellers. Those who grow or make the food sell the food.
- The provenance of local food and creating a connection between what we eat and where it comes from, underpins the whole market.
- The market promotes sustainable agriculture by giving priority to biodynamic, organic and minimal spray produce.
- We support the process of organic certification and as such only those producers who have certification can use the term 'organic'. Terms such as 'minimal spray', 'grown using organic methods' or 'spray free' are an acceptable alternative.
- We are working towards a plastic free market (within the parameters of food packaging laws) and encourage all producers to use natural materials, where possible.
- Genetically engineered foods (including animals knowingly raised on GE feed) cannot be sold at the market.

All stall holders must have approval from the Board of the Barossa Farmers' Market and become market members before they are able to attend the market.
